Meeting #3, April 24, 2007

Small Group Instructions

1. **Read all instructions before beginning!**
2. Pick someone who can write legibly to record your decisions.
3. Pick someone who will report out the results of your work if we have time (quick summary only)
4. KEEP CAREFUL TRACK OF YOUR TIME!
 - a. Review the issue list for your group subject
 - b. Review the "General Issues" grouping, see if you think any of those belong in your category.
5. Review the sub groupings; you can address your objectives to each subgroup or to the category and issues as a whole.
6. Read over your Goal Statement again.
7. Keeping the definition of an Objective in mind, begin to draft Objectives; for each objective you draft, write the number of the issues it addresses (numbers are found to the left of the issue on your sheet)
8. When you are done, all your issues should have been addressed at least once.
